Experts in
Special Needs Education

TIS has also designed [professional development programs](#), which help teachers to equip themselves with knowledge of various types of reading difficulties, the identification of dyslexia, and appropriate teaching strategies.

Remediation

TIS's customized courseware, tailored to the varying proficiency levels of learners and applicable educational standards, helps remedy specific learning disabilities.

Product: Alphabet Track

Client: Granada Learning

Highlights:

- ▶ Interactive CD-ROM for pre-schoolers
- ▶ Eight activities explaining the sequence of the alphabet, vowels, and word spellings
- ▶ Winner of Notable Computer Software for Children Award, 2006

Post-assessment

TIS's online tests assess the students' progress vis-à-vis the focus areas identified in the IEP.

Product: Science Interactive Assessment CD

Client: Hodder Murray

Highlights:

- ▶ Unique and interactive CD-ROM for teachers of Key Stage 3 students
- ▶ Summative and formative assessments
- ▶ Suitable for learners with varying abilities
- ▶ Nominated for Best Product Award at BETT 2006

Reportage

We help teachers analyze data to identify learners' weak spots and track each student's progress relative to the class.

TIS has considerable experience in tracking and representing data by subjects, grades, and schools. Our assessment products for Hodder Murray and nferNELSON offer a sophisticated and detailed yet easy-to-understand reporting system—teachers can generate as many as 100 different types of reports, based on their specific requirements.

TIS's solution spectrum

Our solutions for every stage of LD remediation

- ▶ Seamless—avoid data loss between stages
- ▶ Efficient—cut remediation cycle time
- ▶ Effective—enable tracking of scores and facilitate measurement, evaluation, and improvement

Pre-assessment

Pre-assessment helps separate the regular performers from the children who have special needs.

TIS has experience in developing online and offline assessments for children from K-12. Our tests are designed for the children in various grades in a school, across subjects.

Screening

TIS's software screeners help analyze the type and extent of learning disability.

Product: nferNELSON Dyscalculia Screener

Client: Granada Learning

Highlights:

- ▶ Computer-based assessment
- ▶ Tests that help identify genuine cases of dyscalculia
- ▶ Winner of Best Product Award at the British Educational Training and Technology (BETT) Show 2004

Individualized Education Plan (IEP)

TIS's software simplifies the creation of an IEP—a written agreement between teachers and parents to outline a specially developed instruction path based on each student's unique academic, social, and behavioral needs. TIS collaborates with international Subject Matter Experts (SMEs) to develop such tools.

Our software solutions help reduce the time it takes to create an IEP, and also allow for tracking progress more effectively.

The Tata Group

Over a century of trust

The Tata Group is India's premier and most reputed business house.

- ▶ Revenues of \$45 billion USD
- ▶ 98 operating companies

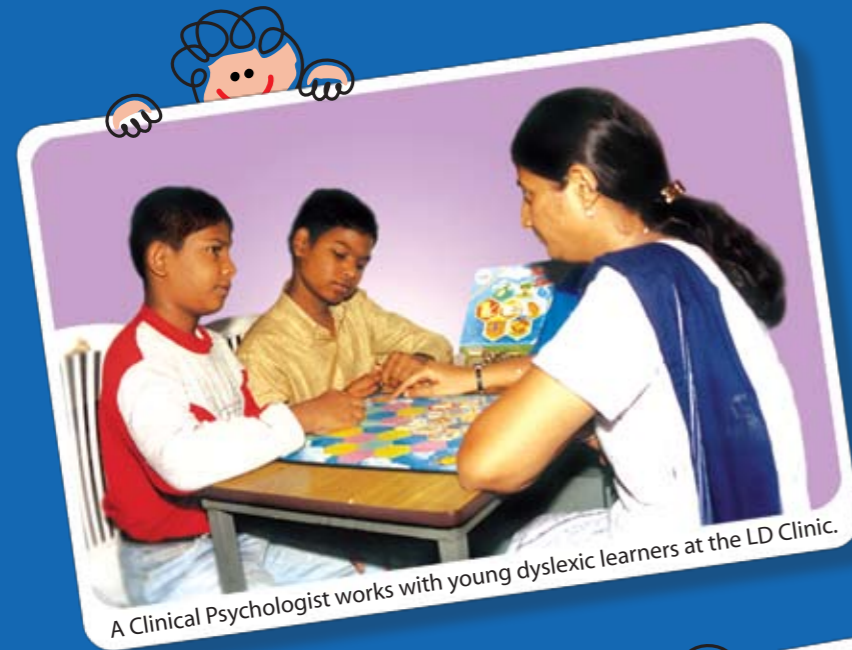

Tata Interactive Systems

Tata Interactive Systems (TIS) is the world's leading developer of learning solutions. TIS' clients include Barclays Bank; Citibank; HSBC; London Stock Exchange; BP-Amoco; United Nations; British Telecom; Siemens; Vodafone; McGraw-Hill; Unilever; British Airways; Emirates; the Royal Mail Group and the University of Phoenix.

PROFESSIONAL

A Clinical Psychologist works with young dyslexic learners at the LD Clinic.

Engaging visual design helps make Brain Teasers a pleasant learning experience for LD students.

The LD clinic

Lokmanya Tilak Municipal General Hospital, Sion, Mumbai

Lending a hand

TIS addresses LD issues at the grassroots, collaborating with the LD clinic at Sion Hospital which is one of the largest government hospitals in India. It is one of the few certified institutions of its kind dedicated to detecting and treating learning disabilities. Our activities include:

- ▶ Sustaining the clinic through financial support
- ▶ Collaborating with the clinic to simplify the day-to-day logistics and management
- ▶ Supporting LD awareness workshops for schools, teachers, and parents
- ▶ Donating innovative, remedial courseware

Brain Teasers

A book with fun activities, developed by TIS for children with LD

TIS, in collaboration with the LD clinic, developed a unique book that synergized our design skills and the clinic's expertise. The book was distributed free of cost to more than 800 children—with more expected every year. Highlights of the book:

- ▶ Designed to nurture the innate creativity of LD learners
- ▶ Includes information for parents on LD
- ▶ A unique initiative by an e-learning organization

The Tata Interactive Learning Disability Forum

Charting a new course for the future

TIS envisages a unique global forum, to be held annually—the Tata Interactive Learning Disability Forum—of Deans, academicians, publishers, pediatricians, and decision-makers in the field of education to help them:

- ▶ Meet and network with each other
- ▶ Share ideas and innovations
- ▶ Change the way LD students learn
